# Premium Seeds

FOR EVERY FARMER

## About Us

### We are Local! Thinking of Global!

Premium Seeds Private Limited has been established by a group of expert vegetable breeders and highly trained professionals in seed industry. Our team of experienced breeders is well versed in all aspects of plant breeding and committed to deliver Premium Quality products to ensure the successful crop for farmers.

We have a strong Research & development program which focuses on developing initiatives to promote sustainable food production and address the food insecurity at the local and global level.

## OUR CORE VALUES

### SAFETY

A commitment to protect the health and well-being of our employees, our customers and the communities in which we operate.

### COMMITMENT

A personal pledge to take ownership of our actions and outcomes in alignment with the long-term view of our mission.

### CLOSENESS

Togetherness arises from human closeness - based on personal appreciation. To learn from each other and grow together.

### INTEGRITY

The courage to always do what is right and behave in a manner consistent with our core values.

### EXCELLENCE

The application of knowledge, skills, abilities and resources to continuously improve and achieve outstanding results.

### INNOVATION

The drive to discover, develop and implement creative ideas and approaches to generate value, solve problems and improve products.

### Objectives:

- To Identify, Motivate and Train Women Entrepreneurs
- To Conduct General and Skill Development Programmes (EDPs) for different Target Groups
- To Assist Potential Women Entrepreneurs to start/establish/run an Enterprise professionally
- To Guide Existing Entrepreneurs in improvisation modernization of an existing unit
- To co-ordinate with Government/Voluntary organizations engaged in promoting entrepreneurship among women
- To offer counseling services to the Entrepreneurs existing as well as prospective.
- To popularize the concept of Self Help Groups' among women as well assist them in formation of SHGs, credit linkage and trainings

# UAS-DHARWAD

University of Agricultural Sciences, Dharwad

**The University of Agricultural Sciences, Dharwad was established on October 1, 1986.**

The University has 5 Colleges, 27 Research Stations, 6 Agriculture Extension Education Centers, 6 Krishi Vigyan Kendras and ATIC. The University has its jurisdiction over 7 districts namely Bagalkot, Belgaum, Bijapur, Dharwad, Gadag, Haveri, and Uttar Kannada in northern Karnataka. Greater diversity exists in soil types, climate, topography cropping and farming situations. The jurisdiction includes dry-farming to heavy rainfall and irrigated area. Important crops of the region include sorghum, cotton, rice, pulses, chilli, sugarcane, groundnut, sunflower, wheat, safflower etc. The region is also known for many horticultural crops.

Considerable progress has been registered in the field of education, research and extension from this University.

# ಕೂಟಗಾಲಿಕೆ ವಿಜ್ಞಾನಗಲ ವಿಶ್ವವಿದ್ಯಾಲಯ, ಬಾಗಲಕೂಟೆ

## UNIVERSITY OF HORTICULTURAL SCIENCES, BAGALKOTE

### THE MISSION

The mission of University of Horticultural Sciences, Bagalkot (UHSB) is to enhance the growth of horticulture sector by providing leadership in teaching, research and extension services in horticulture and allied sciences through continuous innovation and assimilation of emerging paradigms, concepts and technology developments.

### MISSION STATEMENT

To double horticultural production to 300 million tonnes by the end of 2027- 28 from the levels of 152 million tonnes in 2007-08 through co-ordinated programmes involving all the agencies of horticulture, keeping the tempo with many programmes in the coming years to cope up with the increased population.

Government  
of Karnataka

Department of  
Horticulture

## HORTICULTURE IN KARNATAKA "An Overview"

Horticulture is a crucial sector of Karnataka's economy, providing employment to over 1.5 million people and contributing significantly to the state's GDP. The state is implementing several central and state schemes to boost the growth of this sector, which have resulted in a significant impact on production, conservation of soil, water and energy, post-harvest management and capacity building resulting in achieving 1st place with an area of 26.21 lakh ha contributing 9.56% to the Horticulture area of the country while 7th place in production with 241.50 lakh MT contributing to 7.19% of country's Horticulture production.

The National Horticulture Mission (NHM) and Rashtriya Krishi Vikas Yojana (RKVY) are two of the central schemes implemented in Karnataka to provide financial assistance to farmers for the cultivation of fruits, vegetables, spices, and flowers. The state government is also contributing to the Pradhan Mantri Krishi Sinchai Yojana (PMKSY) for the efficient use of water resources, while the Paramparagat Krishi Vikas Yojana (PKVY) is aimed at promoting organic farming.

Under the Oil Palm Development Program, the state has been able to enhance the production of oil palm, which is a significant cash crop. The One District One Product (ODOP) scheme focuses on the development of the horticulture sector in specific districts, leading to higher productivity and quality.

The Comprehensive Horticulture Development (CHD) scheme is another initiative that seeks to develop the horticulture sector by providing financial assistance to farmers, promoting the adoption of modern technologies, and enhancing post-harvest management practices.

To ensure effective implementation of these schemes, the state government has adopted an innovative approach by developing technology-based solutions like the FRUITS and HASIRU software. The software enables farmers to apply for subsidies online, which facilitates faster processing and disbursement of funds.

The impact of these schemes on the horticulture sector in Karnataka has been significant. The production of fruits and vegetables has increased in the last few years, while the cultivation of crops like oil palm has increased. The state has also been able to conserve water and soil through the efficient use of resources, leading to sustainable farming practices.

Capacity building initiatives like training and skill development programs have also been undertaken to enhance the skills of farmers and promote the adoption of modern farming techniques. These initiatives have resulted in a significant increase in the income of farmers and improved their standard of living.

As a result of these efforts, Karnataka is awarded the Best Horticulture State in the Country for the year 2022. The state's horticulture sector has undergone a transformation, leading to higher productivity, better quality, and sustainable farming practices. The government's continuous efforts to support farmers have made Karnataka a model for other states to emulate.
