Agromet Advisory:

Crop | Stage/ Condition | Pest and Disease | Agro advisories
---|------------------|------------------|-------------------
Sowing/cultural operation | Redgram and Ragi: advised for harvested crops cleaning, drying and storage in dry gunny bag. Provide protective irrigation on rabi crops.
Mango | Advised for spraying of sulphur dust at 2g/litre of water for management of powdery mildew disease

The shoots/branches touching ground may be thinned and ground clearance of the canopy main field to prevent the incidence of pests and disease.
