Agromet Advisory:

Agriculture crops

Take up summer ploughing making best use of unusual rainfall which helps in control of weeds, soil borne pest and disease.

Cereals and Pulse

Avoid sun drying and cleaning of cereals and pulse crops due to cloudy weather and light rainfall forecast

Horticulture crops

Mango

Looking into the weather condition due to low temperature in morning hours congenial condition for attacking powdery mildew disease and leaf hopper pest on mango orchard. Hence farmers are advised to take up control measure by spraying of Carbaryl WP@ 4 g/ lt of water or Spray Carbendazim @ 1 g/L or Confidor @ 0.5 ml/ L of water

Grapes

Looking into the weather condition due to low temperature in the morning hours it is congenial for occurrence of powdery mildew. Control measure: Spray Carbendazim @ 1 g/L or Tridemorph @ 0.5 ml/L. In grape to control the sucking pest take spay of confidor@ 0.5ml/ L of water.
