Agromet Advisory:

General advisory/Crop advisory
Due to depression cyclonic storms heavy rainfall forecasted in next 2-3 days

1. Drain out the excess water in crop field.
2. Clean and repair of water channel for collecting maximum rainwater

During this week also the following crops are suggested for sowing of medium to short duration varieties, provided protective irrigation at the maturity stage.
- **Bengal gram**: JJ-11, KAK-2 and Vishal
- **Field bean**: HA-3 and HA-4
- **Horse gram**: KBH-1 and PHG-9

Horticulture crop
Avoid irrigation and spraying of chemicals for next five days. Avoid water stagnation in newly plantations.

Animal husbandry
Care should be taken against the decrease in day temperature for silk worm and poultry and dairy rearing houses by maintaining optimum room temperature and hygiene condition.
