Agromet Advisory:

Agriculture crop
Vegetables Advised to provide irrigation to vegetable and other crops.

Horticulture crop
Mango
- Remove the weeds such as lantana which are growing under the mango tree.
- Destroy the termite mount and termite by drenching Chlorophyriphos @ 5-10 ml/ litre of water or Place 2 Aluminum phosphate /termite mount which has one meter circumstances and close all the holes with wet clay soil to avoid air entering into the mount.

Animal Husbandry
- Preparation of silage and use silage during summer season when shortage of green fodder
- Proper ventilation should be maintained for free circulation of air in the sheds.
- Keep the cattle shed clean.
- Drinking water management of 60 lts. of water/day/animal
- Animals allow for grazing early in morning or later in evening
