Agromet Advisory:
Cereals and Pulse
Right time for drying, cleaning and storage of cereals and pulse crops.

Horticulture crops
Mango
Looking into the weather condition due to low temperature in morning hours congenial condition for attacking powdery mildew disease and leaf hopper pest on mango orchard. Hence farmers are advised to take up control measure by spraying of Carbaryl WP@ 4 g/lt of water or Spray Carbendazim @ 1 g/L or Confidor @ 0.5 ml/L of water

Animal husbandry
Provide shade to milch animals for increasing temperature day by day and decreasing relative humidity. Sprinkle water in milch animal for reducing body heat due to excess temperature.
