At the outset, Dean (Agri.), College of Agriculture, GKVK and Member Secretary of the Board of Studies (UG) welcomed Hon'ble Vice Chancellor and Director of Education, UASB, and Chairman of the BoS (UG), Registrar, UASB, University Heads, HoD's, External expert members, BoS (UG) members and invitees for the meeting.

The Dean (Agri.), GKVK requested to move the item 'Implementation of VI Dean's Committee recommendation' by the assigned faculty members' deliberation.

**Dr. S.V. Suresha, Hon'ble Vice Chancellor**, Director of Education and the Chairman of the Board of Studies (UG) in his opening remarks directed all the members of BOS (UG) to focus deliberations of the VI Deans' Committee to enable for immediate implementation of the new syllabus for the academic year 2024-25 which is scheduled from 14<sup>th</sup> Oct 2024. He also defined the scope of the VI Deans' Committee to be implemented for all the 7 Existing UG degree Programs and suggested to discuss the curriculum of the remaining semesters of the respective UG Programs soon after the implementation of VI Deans's committee.

**Dr. K.C. Narayanaswamy**, Registrar and Dean Post Graduate Studies, UASB gave an overview of the VI Deans' Committee that was mandated to restructure the existing course curricula so as to implement NEP-2020 in agricultural education during the academic year 2024-25 in all farm universities. It was appraised to the members that the modalities and adaptability of the implementation of VI Deans' Committee recommendations are being worked out and need to be followed by all farm universities to facilitate the introduction of multiple entry and exit systems by ICAR which is introduced uniformly for 13 UG degree program in the country.

The modalities, rules and regulations of entry and exit, terms of references of VI Deans' Committee report and all other details were deliberated. The **Deeksharambh**, a general introduction and orientation has to be taken up for two weeks for new entrants. This helps students learning and employability potentiality, along with commercial applicability of the knowledge, develop linguistic English and complete personality development for global preparedness of the students.

It was suggested to discuss courses to be offered during the I semester at teachers' level and not to focus discussion of policy issues as any modification requires completion of one year to know about pros and cons of VI Dean's Committee. Further, there would be large scope for improvement in consequent years with suitable modification in the VI Deans' committee syllabus.

The courses of I Semester of all the 7 UG Degree programs were discussed in detail for effective implementation of the program and to work out the modalities of each of the skill enhancement courses in every degree program.

It was also suggested to discuss courses to be offered for subsequent semesters from the individual department among their faculty for modifications in the syllabus if any with a consensus from their counterpart of other farm universities separately.

Registrar, UASB and Dean (Agri.) CoA, GKVK explained in detail about the common courses, basic and new age courses and also stressed upon the commonality of skill enhancement courses and Entrepreneurship Development courses for respective degree programmes and clarified about the examination pattern and scheme of evaluation etc., to the house.

The house also suggested to have Kannada course as prerequisite for non-Kannadigas who are coming from other states as indicated in the V Deans' Committee.

External experts have given their opinion on the implementation and adoption of the VI Deans' report and appreciated the efforts made by the UASB.

Finally, the house accepted to implement the courses of I Semester of 2024-25 as per the recommendation of VI Deans' Committee report.

The meeting was concluded with vote of thanks.

Approval of the Director of Education, UAS, GKVK, dated 18.10.2024
